THE HUSTONVILLE FAIR.

Good Show Of Stock, Good Time Generally But Crowds Not Up To The Average.

The Hustonville fair came to an end Friday. The crowd that day was the best of the series but the chances are that the association will lose a small amount of money. The show of stock was fine and the fair was most enjoyable throughout, but threatening weather Thursday and Friday mornings kept a good many from attending and the gate receipts were considerably below the average. The officers and directors promised that there would be no gambling on the grounds and the promise was fulfilled, to their credit be it said. The hop Thursday night was one of the many pleasing features of fair week. Lots of belles and beaux were present and the dance lasted until a late hour. Storms' orchestra furnished splendid music for both the hop and fair. Following are the awards of the last day:

Rev. R. H. Boll closed a very interesting meeting at Christ's Church Sunday afternoon. One of the most interesting and successful protracted meetings ever held in Salvisa is now in progress at the Christian church. Rev. People are turned away at every service because they cannot even find standing room in the church. Quite a number have made confessions and at every service persons are added to the church. The whole town and community is much interested in the services.

A Warning to Mothers.

Too much care can not be used with small children during the hot weather of the Summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the old-fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale by all druggists.
